

# CUSTOMER STORY

## TATA Motors plant in Sanand.

### Movomech is honored by TATA Motors to supply equipment for the Sanand Plant, Gujarat, India.

Tata Motors' plant for the Tata Nano at Sanand is located in the Ahmedabad district of Gujarat. The capacity of the plant, to begin with, will be 250,000 cars per year to be achieved in phases, and with some balancing is expandable up to 350,000 cars per year. Provision for further capacity expansion has also been incorporated in this location.

In line with latest world-class manufacturing practices, the Sanand plant has been equipped with state-of-the-art equipment and sophisticated high speed production lines.

Uncease Group, Movomech and TATA, meet in the Sanand plant.

Movomech will provide equipment such as the well-known aluminium overhead rail system Mechrail and different manipulators and balancers for the assembly lines.

"TATA Motors is an important customer and we are very pleased to continue our expansion in India and to see that Movomech is highly demanded as a supplier of equipment," says Mr. Kristian Paulsson, Movomech Area Sales Manager. "Also we must highlight the successful cooperation with our partner, Uncease Group, responsible for this project in Sanand for TATA motors", Mr. Paulsson continues.

Mr. Ajay Yadav, Managing Director at Uncease Group states that the solutions for Automotive Industry are very demanding and with high expectations for quality, ergonomics and production capacity. "Together with Movomech we have worked out a successful strategy to support with high-end production equipment"
